As I was examining the dog, I have noticed that the dog is developing skin condition on his lower back, otherwise the dog was not injured by the horse.

There was a shelter, there water and the dog was roaming freely inside the property.

I had to issue a warning as follows.

1. To take the dog to the veterinarian for adequate treatment within 72 hours.
2. To make sure that the dog is kept inside the property at all times to prevent the dog to be onto the road and attack animals or people walking onto the street.
