General Report Comments: For the second day, On my arrival, I have observed the same car that i saw yesterday a black Citroen car, with a registration No CAA 516 752, the car was still parked inside the property infront of the house.

As the property was not well fenced from the front, I have proceeded into the property to knock on the wooden and the glass door, no one responded , the warning that I issued yesterday was no longer hanging on the security gate. It appeared as if someone removed it

Again I decided to go to the left side of the house, I looked over the partition gate, I have observed a young dog that appeared to be in a fair condition,

I didn't see the water provided to the puppy today, the living environment was also accepted, I didn't see the food.

The dog was still sleeping in a garage that appeared to be adequate against the elements, while I was looking over the partition gate,

I have observed a woman from the shack that was placed at the back of the house, I tried to shout, however the woman went into the house and never showed out.

I had to issue a second warning as follows.

1. It was brought to our attention that there is a dog that is being left alone onto the property, Contact the SPCA within 20 hours .

I have attached the warning on the security gate.
