General Report Comments: Upon arrival I met with Liam Jansen, grandson of the owner of property and dog, and who granted me access to the property. He informed me his grandmother, Joanna Jansen, has gone shopping. He's uncle, the other adult in the house, went with her. He did show me the only dog on the property, a female unsterilised Tan/Black Boerboel X dog named Lily, good body condition, free roaming in the property with access to adequate shelter and potable water. I explained to him the complaint received and he told me that the last time Lily had puppies was sometime last year but all the puppies had left long ago already. He said that they she had 2 litters already but never bred her, its stray dogs that jump over and make her pregnant. I offered him sterilization but he said he will have to ask his grandmother first. I left the office number telling him that should they decide to sterilize the dog, they must phone in and tell our office that they want to sterilize as per the inspector which was at their house. However, I found no contraventions of the Animals Protection Act 71 of 1962, and nothing to indicate that anything transpired at this property im reference to the complaint lodged.

Case can be closed, NFA.
