35. If more than 2 strokes – why **Not applicable.**
36. Does dressing of animal take place while life signs still showing **No**
37. Is the area used for bleeding cleaned between each animal **Yes**

Comments _____

Enclosures lack suitable drainage and th3 shelter is inadequate against inclement weather. This must be fixed months prior to the next Qurbani. I presented 14 bulls yesterday. A further 140 sheep were slaughtered and I monitored sheep slaughter in-between bulls. Handling of sheep was a problem in the beginning and hasn't been since.
