Hi.i only have his government one 🙏

15:37

Ok

15:43

Yes please

15:44

Thank you so much. Can you please send me Mr Solomans email?

15:01

That's perfect, can you please send that one to me?

15:43

Also would you like me to copy you in?

15:44

I have to issue another warning because when I was there today, Milo was brought back in and I saw his gait is stiff so I think he too has arthritis so he's going to have to go to the vet. He's probably going to need pain management too but the vet will diagnose first

Your letter to Mr Kanzi and Ngini dated the March 2025 refers.

Your concern raised about the dog "Racer" is noted and we have to respond to you by indicating that unfortunately the dog had to be euthanized by the Vet at Wingfield Animal Health Centre on the 20 March 2025 due to severe arthritis, chronic otitis and old age.

The other matter raised about the dip bath, it is a structural matter and is receiving attention. Our in-house plumbers have been assisting by unblocking the drainage pipes but it seems that the repair will require structural work as the ath continuously block up. I a aware Mr Loggenberg has forwarded some pictures to you. The dip bath is on our maintenance program and are currently receiving the necessary attention.

Kind Regards

Unfortunately, the breeds often used to work (Shepards, Rottweilers, Labradors, etc.) are often predisposed to joint conditions.

15:48

Thank you very much.
