Inspector: NICOLE VENTER

Type: CALL RECORD - MADE
Follow-Up Date: 2025-06-10

Comments: I called the respondent's mother (Ms Manual) as that is the only number I have. I asked her to confirm that her daughter would be able to take the dog, Selassie, to the vet by tomorrow as per Final Warning 20084. Ms Manual told me that her daughter is only getting paid on Friday and will only be able to take him over the weekend. I said I'd call her back. I then asked the advice of another Inspector and one of the Supervisors and we reviewed the footage of the dog and its food. I also mentioned that already yesterday, Ms Manual showed me a different spot on the property to ask if the running chain could be set up there – so she will try. She has also shown me the vaccination and deworming card for Selassie. Selassie was last at Steenberg Vet on 05 April 2025. It was agreed that based on the dog's condition not being severe, the med attention can be extended for over the weekend. I called Ms manual back and told her that her daughter must take Selassie back to the vet after being paid and that she must remember that the warning issued yesterday was a final warning and that they must prove provision of vet attention when we come to follow up on the running chain. Ms Manual confirmed that she understood this and thanked us for the understanding. Follow up set for after Qurbani on Tuesday, 10 June 2025.
