Postal Code: 7405
Date: 2025-06-25
Time: 14:40
Inspector: NICOLE VENTER

Type: CASE DISCUSSION NOTE

Follow-Up Date:

Comments:

Emma and Jaco are looking at getting a designated Security Dog Inspector so that there is one portfolio with uniform enforcement. Emma and Jason already compiled a spreadsheet pertaining to security companies and all the relevant service providers in Cape Town .

As discussed with Emma, Jason, and Jaco, the new Facilities Inspector or the Security Dog Inspector should proactively arrange a meeting with Tackle Hoff K9 to establish a more productive working relationship and prior to logging further proactives as Renier from Tackle Hoff K9 has been repeatedly difficult.

The suggested strategy is that the new relevant Inspector log a string of proactive security dog inspections that focus on one service provider at a time, starting with Tackle Hoff K9.

Unfortunately, I do not have the photo of the PAPA license's last page and this will have to be obtained by the new Facilities Inspector / Security Dog Inspector in the future and when the department has capacity to do so again. Any further queries from Werner can be directed to Jaco .

The Facilities Spreadsheet, the relevant folder on the SharePoint drive, and this case has been updated and all relevant documents uploaded accordingly.

Smada Security Services - Tackle Hoff K9
