Comments:	I never got the chance to conduct a final follow up inspection. The owner has been warned twice to provide sufficient and adequate perching to bird species and to provide adequate shelter/ hiding space for guinea pigs. The last warning issued also included clean water provision and additional hiding space for fish. Please can this case be allocated to the relevant Area Inspector to conduct a final follow up inspection and ensure the following has been complied to: • Birds have sufficient and adequate perching. • All animals have clean water. • Guinea pigs have sufficient shelter/hiding space.
