Time: 09:24

Inspector: MAGDALENE MARSHALL

Type: CASE DISCUSSION NOTE

Follow-Up Date: 2025-06-13

Comments:

New case reported, the complainant lives on the property and wants to remain anonymous refer to INSP217531: The owner of the property reported that there are other people living with her. A young boy brought a dog onto the property, but he is unable to care for it as he is still a learner properly. His mother is mentally challenged and is not in a position to provide for the dog's needs .

The dog does not have access to adequate shelter and sleeps outside in the cold. The owner's main concern is the potential health risk to the elderly residents on the property. She mentioned that the boy cleans up the dog's faeces using the household broom and scoop , and disposes of it in the bin without placing it in bags. As a result, the bins are not being properly cleaned, causing a foul smell on the property.

The owner is primarily focused on having the dog removed as it is not receiving proper daily care, is reportedly starving, and poses a hygiene risk to the household.
