Follow-Up Date:	2025-06-30
Comments:	Please can this case be allocated to the relevant Area Inspector for a final follow up inspection . I never got the chance to discuss the matter further with Dr LeLani from Wingfield Vet . Yesterday I sent a final follow up request via email to the vet and the prison (my phone calls went unanswered) but I doubt they will send the relevant feedback today. The prison took Milo to the vet once (10 April) but he was supposed to go back for x-rays. Please can the Inspector take footage of the relevant medication or medical certificate proving that pain management is being provided to Milo if necessary or that he was taken back to Wingfield Animal Health Centre after 10 April. Thank you.
