Comments:	The admin for this case was already up to date and the case was scheduled for a follow up inspection. However, I was sent to NSPCA for the refresher course and upon my return to Cape Town , the Circus already moved into Swellendam SPCA's area of jurisdiction. Luckily an email was sent to Swellendam SPCA notifying them of the warnings issued . Additionally, David (circus) already sent proof of compliance to the warning issued for fly control. This case can be closed with NFA.
