Inspector:	TREVOR RODNEY

Type:	CASE DISCUSSION NOTE
Follow-Up Date:	2025-07-03
Comments:	I was in the area to followup on a case in Basket Lane, which is one of the roads that borders Buchanan Square. I was approached by the building manager of Buchanan Square, enquiring about my reason for being in the area, as he had seen me the previous Friday also. I then raised the concern wrt one of the tenants littering, (sweet wrappers and empty chips packets) through the window into this property. He told me that he had spoken to the tenant of that business/property. As mentioned in my previous report, the owners are aware of the building maintenance/alterations being done on Buchanan Square and they showed me that they had moved the dofs water bowl inside the small room, where the dogs have access to, in order for the water to remain drinkable. Complainant to be made aware that vexatious complaints are a contravention of the Animals Protection Act #61 of 1972. I am also speaking with LE regarding the By-laws with regards to littering (through the window) into this property Sterilization is planned for early next month
