Comments by Inspector: I have found no contraventions of the APA 71 of 1962 on the slaughtering as Sheikh Muhammad was the main person (Dhabihah) and his 2 sons (Zakaria and Ibrahim). The equipment that was used was inspected, sheep were laid on top of the table, Sharp knives of different sizes, an Empty Bucket (used to drip off the blood) Bucket of water (to rinse the knife after every cut and the surface where blood dripped).

Picture attached:

Transportation was the main issue that needed to be monitored on the farm and we tried to address the concerns of the transportation with the owner of the farm, but he stated that the people only tie up the animals out of his property not while they are being loaded.
