Comments I was accompanied by Cadet Inspector Alexander. We met with the caretaker as the owner was not home. The caretaker granted us access and took us to where the sheep is kept.

The sheep seemed to have tipped their water container as it was empty. We advised that they place the container closer to the gate so that they may see ensure the water is always full, they complied immediately.

One sheep was seen to be limping slightly on his hind right leg. I called the owner who advised that they will assess the sheep and slaughter the sheep if they can't treat the injury. We issued a 24 hour notice (Notice 14254) for them to either treat the sheep or slaughter her.

Signed
