Inspector:	NAKITA SUTTER

Type:	CALL RECORD - MADE
Follow-Up Date:	2025-07-24
Comments:	I called the complainant as we are working together with regards to this complaint. The complainant said that Ruth the owner had been assisted with sterilizing the 2 females and had made arrangements to trap and sterilize the 2 males. To her knowledge those are the only cats that Ruth has laid claim to and should be on the property but she fears there may be several kittens inside but is never allowed access. I have assured her that my report will not be complete until I have been inside the house and verified the amount of animals. I am setting a follow up date for tomorrow to try to gain access. The complainant also assured me that she helped with food over the weekend.
