Subject: Animal abuse

Good Day

I have complained about Joan and her daughter and son in law and their abuse on their animals quite a few times now.

Inspector after inspector after inspector comes out...JOAN pulls out the fragile old lady card each time and inspectors leave...all they say is the dogs are well cared for, they have fresh food and water and a clean yard... 1 inspector said she saw as the poodle attacked the rottie puppy, she could see the bite marks on the rotties legs.. she told Joan she has a nice big yards she must keep them separated.

Rottie and Alsation at the back and poodle in the front yard. She warned Joan that if the poodle keeps attacking the rottie then one day that rottie will turn and kill the poodle..

Now i have recordings of the dogs yelping...twice sometimes more daily.

She had a black little dog that was seen running up and down the street try to get into joans yard..Isabel Atkinson took the dog and asked Joan if this was her dog Joan said yes but she kicked him out for digging up her garden she didnt want it anymore... 17 years that i have been here there have been issues with her and dogs.. the cries are so loud is saddening...

Joan thinks people have a vendetta against her, the problem is people here are sick and tired of being woken up by her dogs...sick of hearing the cries morning and night....neighbors can hear them shout and scream at the dogs...they either hit or kick them... its wrong.

I dont care that they have fresh food and water...i dont care if the yard is clean

The dogs wont cry and yelp they was they do for no reason...and dont tell me some dogs do yelp for fun..that's BS!

I think its time the dogs are removed from these evil people and they should be banned from having dogs ever.

Her address once again is

4 Klaproos Street

Diep River

In that letter written by Merl you will see her number you can call her and she will give you so much info..

Pls help these dogs or we will be going to the Bulletin newspaper and all others papers and Facebook...

Its been long enough now these poor dogs are going to get killed .
