Comments:	The SPCA received a complaint about the guy posing a mobile vet (Shaheem Morris) who goes around the people's houses pretending to treat with either expired medication or over dosing the animals leading animals to be put to sleep because of the extend of treatment. On the 04 of April 2025, I went to Animal Welfare Society in Phillip, to get a veterinarian report as the complainant mentioned that he took his dog was AWS, as it got worse after the dog was treated by this fake vet and unfortunately the AWS had to put the dog to sleep down . On the 07th of April 2025, I received a veterinarian report that confirmed that the dog was struggling to stand or breathe.. On the 09th of April 2025, I have called the owner on the dog, I wanted him to provide me with his statement based on what happened, the owner told me that. It was not a first time , according to the owner of the animal, the fake vet came to the property to treat the sick that died after it ws given the medication, the owner of the dog mentioned that, this was second animal that loved the life because of the fake vet
