Comments:	Upon our arrival , we met with joy who provided us with necessary proof of sterilization for their male X breed dog. However they have not sterilized their Female GSD. They wish to keep her unsterilized as they see no need for both her animal to be sterilized. They advised dogs are free roaming within the property boundaries and does not go outside. Joy was with futher informed that about the city's animal bylaws relating to the adequate amount of animal allowed on a residential premises and city of cape towns sterilization by laws. Follow up to be done next two weeks to ensure compliance for Roxy sterilization and re-homing of 4 additional puppy's on the premises
