Comments:	As per Insp Trevor i called the complainant and chatted with her regarding the complaint . She mentioned that she had made the complaint in anger and has since tried to approach the situation herself. I explained to her that her concerns are valid and we will investigate and she asked if i could give her a few more days as they live on one property but have two house's on it and he can be quite difficult. She said that shelter was her biggest concern and she has since offered him a kennel . I explained that the rains were coming again so i would give her 48 hours and then call her and do the inspection.
