Comments, if any:

While following up at the property to collect the dog named Tyson and the cat named Kitty for sterilisation, Inspector Davids and I observed that the owner Mr. Arendse had already placed the dog on a running chain, he had also moved the kennel to a better area which provided shade other than the shelter for during the day. The owner had also put a collar on the dog. there was water available and the living environment appeared to be clean.

The owner had complied with the warning that was issued to him and no further action would be required other than sterilising the two animals kept on the property.

We collected the animals for sterilisation and transported them to the Cape of Good Hope SPCA for the procedure.

The cat was returned to the owner on 13 August 2025 in a healthy and fit state, the dog would be returned the following day as it was not sterilised yet.
