Comments, if any:

Upon arrival, Inspector Davids and I introduced ourselves to the owner and informed them that we conducting door-to-door inspections in the area and the owner granted us access.

We observed 3 adults on the property and they all appeared to be in good condition, they did however require for their coats to be groomed a little. I observed 3 adequate size kennels that would protect the dogs from weather conditions. There was adequate space and the living environment appeared to be clean. There was no water available and we told the owner that potable water should be available to the dogs at all times.

All the dogs have been sterilised already by another welfare organisation that used to operate in the area but have since withdrawn their resources.

Inspector Davids issued a warning to:

1. Ensure clean water is available at all times.
2. Groom your animals within 5 days.

The owner signed and accepted the warning.
