Free roaming - in property

Adequate space:

Yes

Clean living environment:

Yes

Water available:

Yes

Adequate shelter available:

Yes

Animal/s in good condition: No ***

Veterinary problems / health concerns: Yes ***

Comments, if any:

Upon arrival, Inspector Davids and I introduced ourselves to the owner and informed them that we conducting door-to-door inspections in the area and the owner granted us access.

We observed two adult dogs on the property, the black and white Pitbull x named cody appeared to be in fair condition while the other xbreed tan/white dog named spotty appeared to be considerably underweight and would require veterinary intervention.

There was water available, there was a large kennel for the dogs and a clean and large living environment. We informed the owner that the dog would need to be seen by a qualified veterinarian to diagnose the cause of the weight loss. The owner informed us that both dogs were already sterilised.

Inspector Davids issued a warning to:

1. Your dog named Spotty appears to be underweight, take the dog to a veterinary clinic within 48 hours and provide proof thereof.

The owner signed and accepted the warning.

Inspector
