Comments:	At approximately 08h45, Rudy called the responded, as wented to know why the dogs were cages, the owner responded by saying the dogs do jump over the fence, it didnt make any sense on us as the property appappeared to be fully covered, however, the owner told us that, the dogs are no longer caged, he is planning to rehome the third dog, then he will be keeping one dog, Rudy gave him an option where he can surrender the dog over to spca, the owner mentioned that, he has a home for the dog. He told us that the dogs arw no longer cages, the owner mentioned that he caged the dog when he was about to pull out and he forget to take it out from the cage. He told us that, he fixed the shelter and he will taking the third dog by next week Friday.
