Type:	CASE DISCUSSION NOTE
Follow-Up Date:	2025-09-01
Comments:	This case involves the collection of the mother dog for sterilisation and the surrender of her puppies. Currently, the mother is underweight, so we will not be able to proceed with sterilisation until she has gained sufficient weight. The puppies are still nursing from the mother and are too young to be separated at this stage. Keagan from the Pound will keep us updated on the progress and status of the case.
