Please describe the concern you have

I'd like to report a concern regarding two dogs being kept at 22 Tidewater Street, Canal West, Sunningdale.

The dogs are confined 24/7 to a small side and back area of the property, despite there being a large yard that they are never allowed into. They are kept outside in all weather, including recent heavy rain and cold temperatures. While they have doghouses, they are never brought inside the house, even during storms.

They appear to be fed once per night, and I often hear the smaller dog pushing its bowl around late at night and drinking water repeatedly — which may suggest hunger or lack of food during the day. There is also frequent yelling directed at the dogs from the household, which has now been echoed by the children. The larger dog has been heard growling at the smaller one on occasion.

They are not walked, exercised, or socialised, and they are completely shut off from visual stimulation, as the enclosure is hidden from street view. The dogs seem distressed and isolated, and I am deeply concerned for their wellbeing.

I kindly request a welfare check to ensure they are being cared for appropriately. And at least educating the owners, as they might just not be aware of how they treat their dogs and the needs they don't meet.

Another note: They might be a bit defensive so just be aware of that, as they threatened us with lawyers via our HOA even when we were anonymously concerned about the dogs' continuous barking at times.

Last note: I would like to remain strictly anonymous.

Thank you very much for your time and for the work you do.
