Dear Ayanda,

Following your inspection with warning number 22745;

As requested we have taken Tami to the Vet. Attached is the report and the invoice. The Vet recommended different food which I will source once I have the funds. Further to this they recommended that we have her spayed.

I unfortunately do not have the funds right now to have her sterilised. Is this something the SPCA can assist me with and what will the costs be?

I trust you find this in order.

Kind regards
Maritza and Sean Gebhardt
