Date:	2025-08-04
Time:	19:08
Inspector:	STEPHEN BENJAMIN

Type:	CASE DISCUSSION NOTE
Follow-Up Date:	2025-08-05
Comments:	upon arrival i searched the given location and around and found no injured Gees however i strongly feel its the same gees we have been trying to catch for the past 3 weeks the bird tends to go at night into the nearby sportfield but ones he sees someone approaching it flies off .I got hold of the complainant and spoke with her face to face and assured her we will try best to capture the bird but it can still fly making it difficult to catch .a follow up for day shift or supervisor to instruct further
