Comments:	Upon our arrival at the address we met Gerard, the son of the owner. He gave us access to the property in order to conduct an inspection. We observed 3 dogs which all appear to be in a fair condition, with access to food,water and shelter. The city bylaw wrt any animal over the age of 6 months having to be sterilized was explained to him. The dogs on the premises were an adult male, adult female and a 5 month old pup. The adult female is sterilized. A compliance notice was issued for him to get the adult male sterilized.
