Subject: PTS collection Delft

Hi

Chandre Steeneveldt
72Heinkel Crescent, The Hague, Delft

Dog has been sick for almost 4 weeks. Initially they treated his eyes for eye infection. A week later the petshop gave antibiotics. The dog got worse and was taken back a week later only to receive MORE anti biotics. (See picture attached – looks like Doxy but could be SMARTIES for all I know.) Someone at my outreach on Sunday told her the dog has distemper and might have to be put down or she needs to seek medical attention because we are not registered vet personal so we cannot give scheduled drugs and do not have the necessary meds on hand anyway. The dog has full blown Distemper. Totally neurological, his hind quarters collapsed. Please collect for PTS.
