Any other information you would like us to know? Previous case number: INSP209963

You have inspected every pet-owned property on this farm before but luckily only one owner needs a few reminders/warnings from you this time; as the inspector will find, Whitey is surrounded by roughly 1 months worth of faeces which is strewn across the entire area that he can access (plus smeared along his chain) and which the owner will not clean up even after being spoken to by the farm owner.

Please note that I visited Whitey yesterday (11/08) and filled up his water bucket but normally you will find him without access to water unless I stop by to fill it up once a week.
