Comments:	Called the respondent earlier today at around 10H00, she informed me that after lots of struggles they finally were able to load the dog and take him to AWS helderberg and her husband was at that time on his way with the dog. I then called AWS helderberg now and spoke to Vanessa who confirmed the dog Duke was there this morning and they found he had cancer from his leg all the way into his chest already. The dog was then euthanised as they could not treat it at this stage. Therefore, this case can be closed, NFA.
