Time:	19:54
Inspector:	TEAH MURPHY

Type:	CALL RECORD - MADE
Follow-Up Date:	2025-08-14
Comments:	This collection should have been scheduled for tomorrow for the day shift, as the driver is inundated with emergencies and doesn't have a cage van. This dog and the 7 puppies are all healthy in good health and condition. Spoke to the owner, who agreed to have SPCA come to the premises tomorrow after 15h00 to collect the mother dog with the 7 puppies. Siya was asked to leave the paperwork with the owner to sign overnight to ensure smooth sailing for the day shift, as the driver will then just have to load the dogs and get the paperwork. The owner's son will be home with his nanny and will grant us access to uplift the dogs we just need to call the owner before approaching the property so that she can inform the nanny that we are en route.
