Subject: Animal cruelty

Dear Sir /Madam

I have been trying to report a case of cruelty to a puppy for the past 3 weeks, and are being sent from pillar to post.

Yesterday, 6.8.25, I spoke to a gentleman by the name of Eugene on the SPCA number 021 7004158, and explained to him that there is a 8 month old German Shepard puppy held in a confined space on a property at number 20 - 1st Street Welcome Estate causing the animal to cry and cry from 5h30 till late into the night! No one is paying attention to the animal, even though the owners work from home. Eugene told me to call the police on 021 4807700 to handle this matter which I did and got a reference number 1002676815.

The police officer by the name of Mr Mtayi called me and explained they only deal with cases where an animal is running loose and causing harm to civilians. I believe him because approximately 3 months ago pitbull dogs escaped from a neighbours yard and was running around attacking people. The police came and dealt with it.

I tried, in vain to contact Eugene today, to once again, report the above matter.

The Animal Anti Cruelty Leaque telephones just ring .

I am desperate for this animal to assisted, hence my communication to your office.

Kind regards
Rashida Abrahams
