Animal 4						
Animal 5						
Animal 6						
Animal 7						
Animal 8						
Animal 9						
Animal 10						

FINDINGS

Confinement of animal/s: Free roaming - in property
Adequate space: Yes
Clean living environment: Yes
Water available: Yes
Adequate shelter available: Yes
Animal/s in good condition: Yes

Upon arrival at the property, Inspector Davids and I introduced ourselves and explained to the owner that we are conducting door-to-door inspections and the owner allowed us access.

We observed 3 dogs on the property in total, all the dogs appeared to be in good condition and no veterinary concerns were observed.

There was adequate shelter in the form of a large roofed area that leads into the house. There was water available, adequate space as well and a clean living environment. We did not observe any welfare concerns. The living environment was wet in some areas as the area is having an issue with rain water flowing away due to the nature of the how it is situated. However the owner has made mitigated this by cutting channels in the ground to redirect water away.

I gave the dogs dewormer and fibronil, we asked the owner if they would like to have the dogs sterilised and they refused. I will log a bylaw complaint for having unsterilised animals over the age of 6 months.

ACTION TAKEN
No action required

Veterinary problems / health concerns: No
OUTCOME / FOLLOW-UP
Case finalized - NFA
Referred to Law Enforcement
