FINDINGS

Confinement of animal/s: Free roaming - in property

Adequate space: Yes

Clean living environment: Yes

Water available: Yes

Adequate shelter available: Yes

Animal/s in good condition: Yes

Upon arrival, Inspector Davids and I introduced ourselves to the owner and informed them that we are conducting door-to-door inspections in the area and the owner granted us access.

We observed a Tan/White male Pitbull puppy that appeared to be in good condition. The owner informed us that the puppy sleeps inside the house. There was water available and adequate space and a clean-living environment inside the house and the yard for the puppy. There was also a cat that appeared to be in good condition and was alert and responsive.

The cat is sterilised but the puppy is not yet sterilised as it is not over the age of 6 months as yet.

We did not observe any welfare concerns and the matter can be finalised .
