Subject: Injured dog in Don Carlos

Hi inspectorate

I am bringing to your attention a dog who we've seen many times roaming looking for food although we know which household the dog belongs to as we live close by.

Whenever I am driving past the dog is always outside on the field looking for food. Today we saw he is clearly injured. I am not sure if a car perhaps drove over his paw or if he got hurt else where but he was clearly struggling to walk meanwhile the owners were standing by the gate while their dog is clearly injured.

I tried to take a video as best as I can which I will attach to this email and I will also attach which house it is as i am unsure about the number but it's the house on the corner in Don Carlos Road Eastridge Mitchell's Plain and on the wall of the house it says "P Diddy" so it can't be missed.

I would appreciate if the team would come out and check up on the dog please and owners as well

Thank you very much for all that you do

Kind regards
