Please describe the concern you have

My mom and I take a walk around the block every now and then. There are 2 dogs at a certain house in the block behind our house. Every time we see them, they get skinner and skinner. It's been about a month or two since we've taken a walk and the other day, when we did, the dogs seemed more docile and were extremely thin. Generally the dogs bark and are aggressive towards outsiders but they didn't even act. One lied on the ground and the other just looked at us. I couldn't stop thinking about it. You can see their ribcages. I'm not sure why the owner hasn't fed them but those dogs need to be fed before anything happens. Please do something as soon as possible.
