FINDINGS :

Confinement of animal/s: Free roaming - in property

Adequate space: Yes

Clean living environment: Yes

Water available: No ***

Adequate shelter available: No ***

Animal/s in good condition: Yes

Veterinary problems / health concerns: No

Comments, if any:

Upon arrival, myself and Inspector Lwazi Ntungele of Cape of Good Hope SPCA met with the owner of the dogs, Mrs Julian De Villiers, who granted us access to the property.

We observed an adult female X breed dog, fair body condition and free roaming on the property. The area was clean, but there was no shelter or water observed outside. The back door was open to the house, and the small juvenile X breed female dog, fair body condition, was inside the house. There was a water bowl inside the house as well with clean water. The owner explained that the adult dog sleeps inside the house as well, however I asked her if the door stays open all the time when she is outside and the owner said not all the time but most of the time. I informed her that if that is the case, then she needs to provide water for the dog outside the house as well, and adequate shelter for the dog when it is outside and does not have access to the house.

I issued a warning, 21803, to:

- Provide the animals with adequate shelter against the elements within 7 days, for the times the dogs are outside and cannot gain access to the inside of the house.

- Provide the animals with sufficient potable water 24 hours a day

The warning was consigned by myself and Inspector Lwazi Ntungele. The warning was signed and accepted by Mrs Julian De Villiers.

ACTION TAKEN :

☒ Warning issued

Number: 21803

OUTCOME / FOLLOW-UP :

☒ Follow-up inspection to be conducted

Follow-up inspection date / period: **September 30, 2025**
