Comments, if any:

Upon arrival, myself and Inspector Lwazi Ntungele of Cape of Good Hope SPCA met with the owner of the dog, Mrs Chané Lewis, who granted us access to the property. We observed an adult male X breed dog, fair body condition and free roaming on the property. The dog had access to adequate shelter and water. The living area was clean but there was also a lot wood and hazardous materials laying around. The owner explained that they slowly getting rid of the stuff in the yard to make the space more neater. I told her that she will need to get it sorted soon as the objects pose a hazard to the dog. I issued a warning, 21808, to:

- Clean and hygenically maintain the animal's living environment within 6 days, especially the hazardous materials in the living environment.

The warning was consigned by myself and Inspector Lwazi Ntungele. The warning was signed and accepted by Mr Ruben Mart. I also administered dewormer for the dog.
