Follow-Up Date:	2025-09-08
Comments:	Spoke to Aubrey, the owner of the the dog. He confirmed to me that the dog is actually at the property , they fetched the dog last week Friday. He confirmed he saw the dog this morning also. He said he is setting up the running line and a makeshift shelter tomorrow. I informed him that his son told me the dog went missing last week Friday and they have been looking for the dog since. I told him that his son Reagan should not lie to me and I will take further action should he hinder us again. I told him I will come Monday to check the situation and will proceed with further action should there be non compliance.
