Comments: Hi Rudolph,
I have reviewed the case file and the affidavits, and there are several important pieces of information missing which need to be addressed to strengthen the matter. Please see below:
Owner Identification

- Full names, ID numbers, and confirmation of ownership for Charlene and Marlin Williams.
- Record how ownership was confirmed.
- Ursula's affidavit must also specifically name the owners.

Animal Condition

- Consistent and detailed descriptions of both dogs.
- Include body condition (e.g. emaciated, ribs visible, body score if known).
- Colour, sex, breed type, and any identifying marks.
- For the deceased dog: clear description of the body when found.
- For "Tiger": detailed condition upon seizure, including whether food, water, or shelter was available.

Chain of Custody

- For the deceased dog who released it from FAW to SPCA.
- For the surviving dog: confirmation of where it was taken on arrival at SPCA and by whom.

Once these points are addressed, the affidavits will align better and provide a complete chain of evidence for prosecution.
