Subject: Extra info on case number INSP220405

Good day.

Thank you very much for all your correspondence thus far. I shall await further info on the final outcome of this case please.

In the meantime it has come to my attention the owners of this dog have now put up thick green shade cloth right across their fence so now, hindering me from trying to feed the hungry dog through the fence and also now cutting off an already bored & frustrated dogs only outside stimulation from the outside world.

He is totally isolated now.

I just wanted to alert you so that when your inspector goes there he knows about the shade cloth covering so he may not be able to see in properly to access the dog and it's environment.

Perhaps I could suggest gaining access to inside the building to knock on their door directly. If need be I do have the caretakers contact number of that building should you require it. Please let me know if you require that contact.

The caretaker of that building stays in unit number 11, he will be able to let you in.

Thank you very much, Bless You

Kind regards

Kerry Ostler.
