Comments:	I had the respondent send pictures and videos of the property, where I observed the dogs on the property, fair body condition and free roaming on the property. There is adequate shelter and water available for the mother dog and the remaining 2 puppies. The area is clean, and I see no welfare concerns. The respondent advised he wants the mother sterilised once the puppies are gone, whereby I said I will set that up for him and he can message. However this case can be closed for now, NFA.
