Subject: Re: COGH SPCA : Eland Avenue Lotus River

Good day. I checked the number system of Eland avenue lotus river. Each house number is being skipped by two numbers eg. 64 then the following would be 66. So that is how the numbering is. So the house numbers for that pictures I have send will be 65; 69; 71; 73; 77. There is no visible numbers on Google map as well. And that is why I checked how the numbers works. So the easiest way would be to start counting from 63 in Eland avenue on the left side because only that house have a number. Then the street numbers I have sent will then follow in a pattern . Reason why I'm informing you about these houses is because I saw there were dogs with skin conditions that goes in and out by these houses. I also saw dogs coming out from there to drink water laying in the road so maybe there is no water even available. And that's why these houses are a concern for me. The houses are all located on the left side of Eland avenue lotus river. So they run in one row next to each other. The skin conditions look really bad that's why Im trying to inform you ASAP.
