Subject: Tracing request

Good day Jaco,

Kindly request tracing for the below:

Case reference:220692

TRACING REQUEST: PLEASE INSPECT AS PER THE EMAIL: Upon arrival at Tygervally shopping center Bellville yesterday afternoon, I parked on the top in the open and the sun was fairly hot – this car was already parked with the dog inside, all 4 windows was open with a small cack of about 4cm. The dog was in distress and panting heavily and sort of calmed down when we try talking to him/her. This is unacceptable as I do not know how long the person was in the shopping center but clearly the car has been there for a while when we arrived.
I leave this with you as I cannot track the number plate on my own.

VEHICLE DETAILS:
MAKE: Volkswagen
MODEL: Citi Golf
COLOUR: Dark/ Navy blue
REGISTRATION NUMBER: CA240703

Regards
Teah.
