Veterinary report:

Andy, a 35 year old, Thoroughbred chestnut gelding.

He is retired and stabled at Rivendale riding club. He is a patient of ours. His teeth is done by a dentist regularly.

He is still active, has a good appetite and is full of life.

Due to his age his body condition has deteriorated slightly, this often happens at this age.

Other than that he is currently clinically healthy.

He is closely monitored and veterinary treatment will be done if needed.

If you have any questions, please contact me.

Kind Regards

Dr Zandri Snyman
