Type:	CALL RECORD - MADE
Follow-Up Date:	2026-01-05
Comments:	I contacted Jackie to confirm whether the dog had been taken to a veterinarian. Jackie advised that she returned the dog to AACL earlier this morning. She further stated that she was informed that should the HCA require the veterinary report, the HCA would need to contact AACL directly to obtain it. I will follow up with AACL on Monday, as they had already closed for the day at the time of this communication.
