Subject: Re: CoGH SPCA: 43 Epping Street - cat with eye damage and covered in fleas

Good day thank you for your past intervention at this house.

Anonymous please:

This house had two identical cats, the other white one with an orangy tail roams around the back of our property. This cat is covered in fleas. It has fleas all over its eyes, in its eyes, inside both ears, fleas on its nose and mouth.

I (anonymously have attempted to help this cat) thinking it was a feral cat, however, the cat appears to live at this address 43 Epping Street Rugby, Cape Town.

This family also have dogs, or they used to have dogs, do not know if the dogs are in the front.

After large parties, pool parties and people gathering at this property I cannot understand why they neglect their cat.

If they do not put flea powder or treatment on their cat, maybe they also do not bother with flea treatment on the other pets, ie. a german shepard, seen in their back yard.

Surely this family could treat their cats fleas.

It is shocking to see this poor cat covered in fleas with flea infestation all over its face.

Please intervene if at all possible to maybe educate relating to the flea infestation on the poor cats face.

With thanks, an anonymous neighbour
