Comments:	With regards to this case, there is a security company that I believe does not have a PAPA license . They place a dog at night on a building site in Da Gama Park. Notices have been issued, but there has been no response. The complainants stated that the dog is being left alone on the building site without any shelter. This raises welfare concerns, as the dog is exposed to environmental elements. Left unattended at night on the site. I would like to request that this case be handled after hours, as each time I attend during the day, the dog is not present.
