Follow-Up Date:	2026-01-07
Comments:	I dropped the Warrant application by the magistrate and she stated that there is no proof that there are in fact fish on the property. If there are fish, she needs to know that they are not being fed or adequately fed and/or green water is unsafe or cruel for the fish and is there any proof of a sick fish. And also in my statement I did not mention that I have seen the fish, unless we can obtain an affidavit from the tenant who is feeding the fish.
